Green Code

An application which recycles garbage with the use of IOT bins , whole garbage system in a one app and system to reduce air pollution.

Hello Everyone !

We are:

- Green Coders
- Foundation Team
- From Informatics Institute of Technology
- devin.20200219@iit.ac.lk

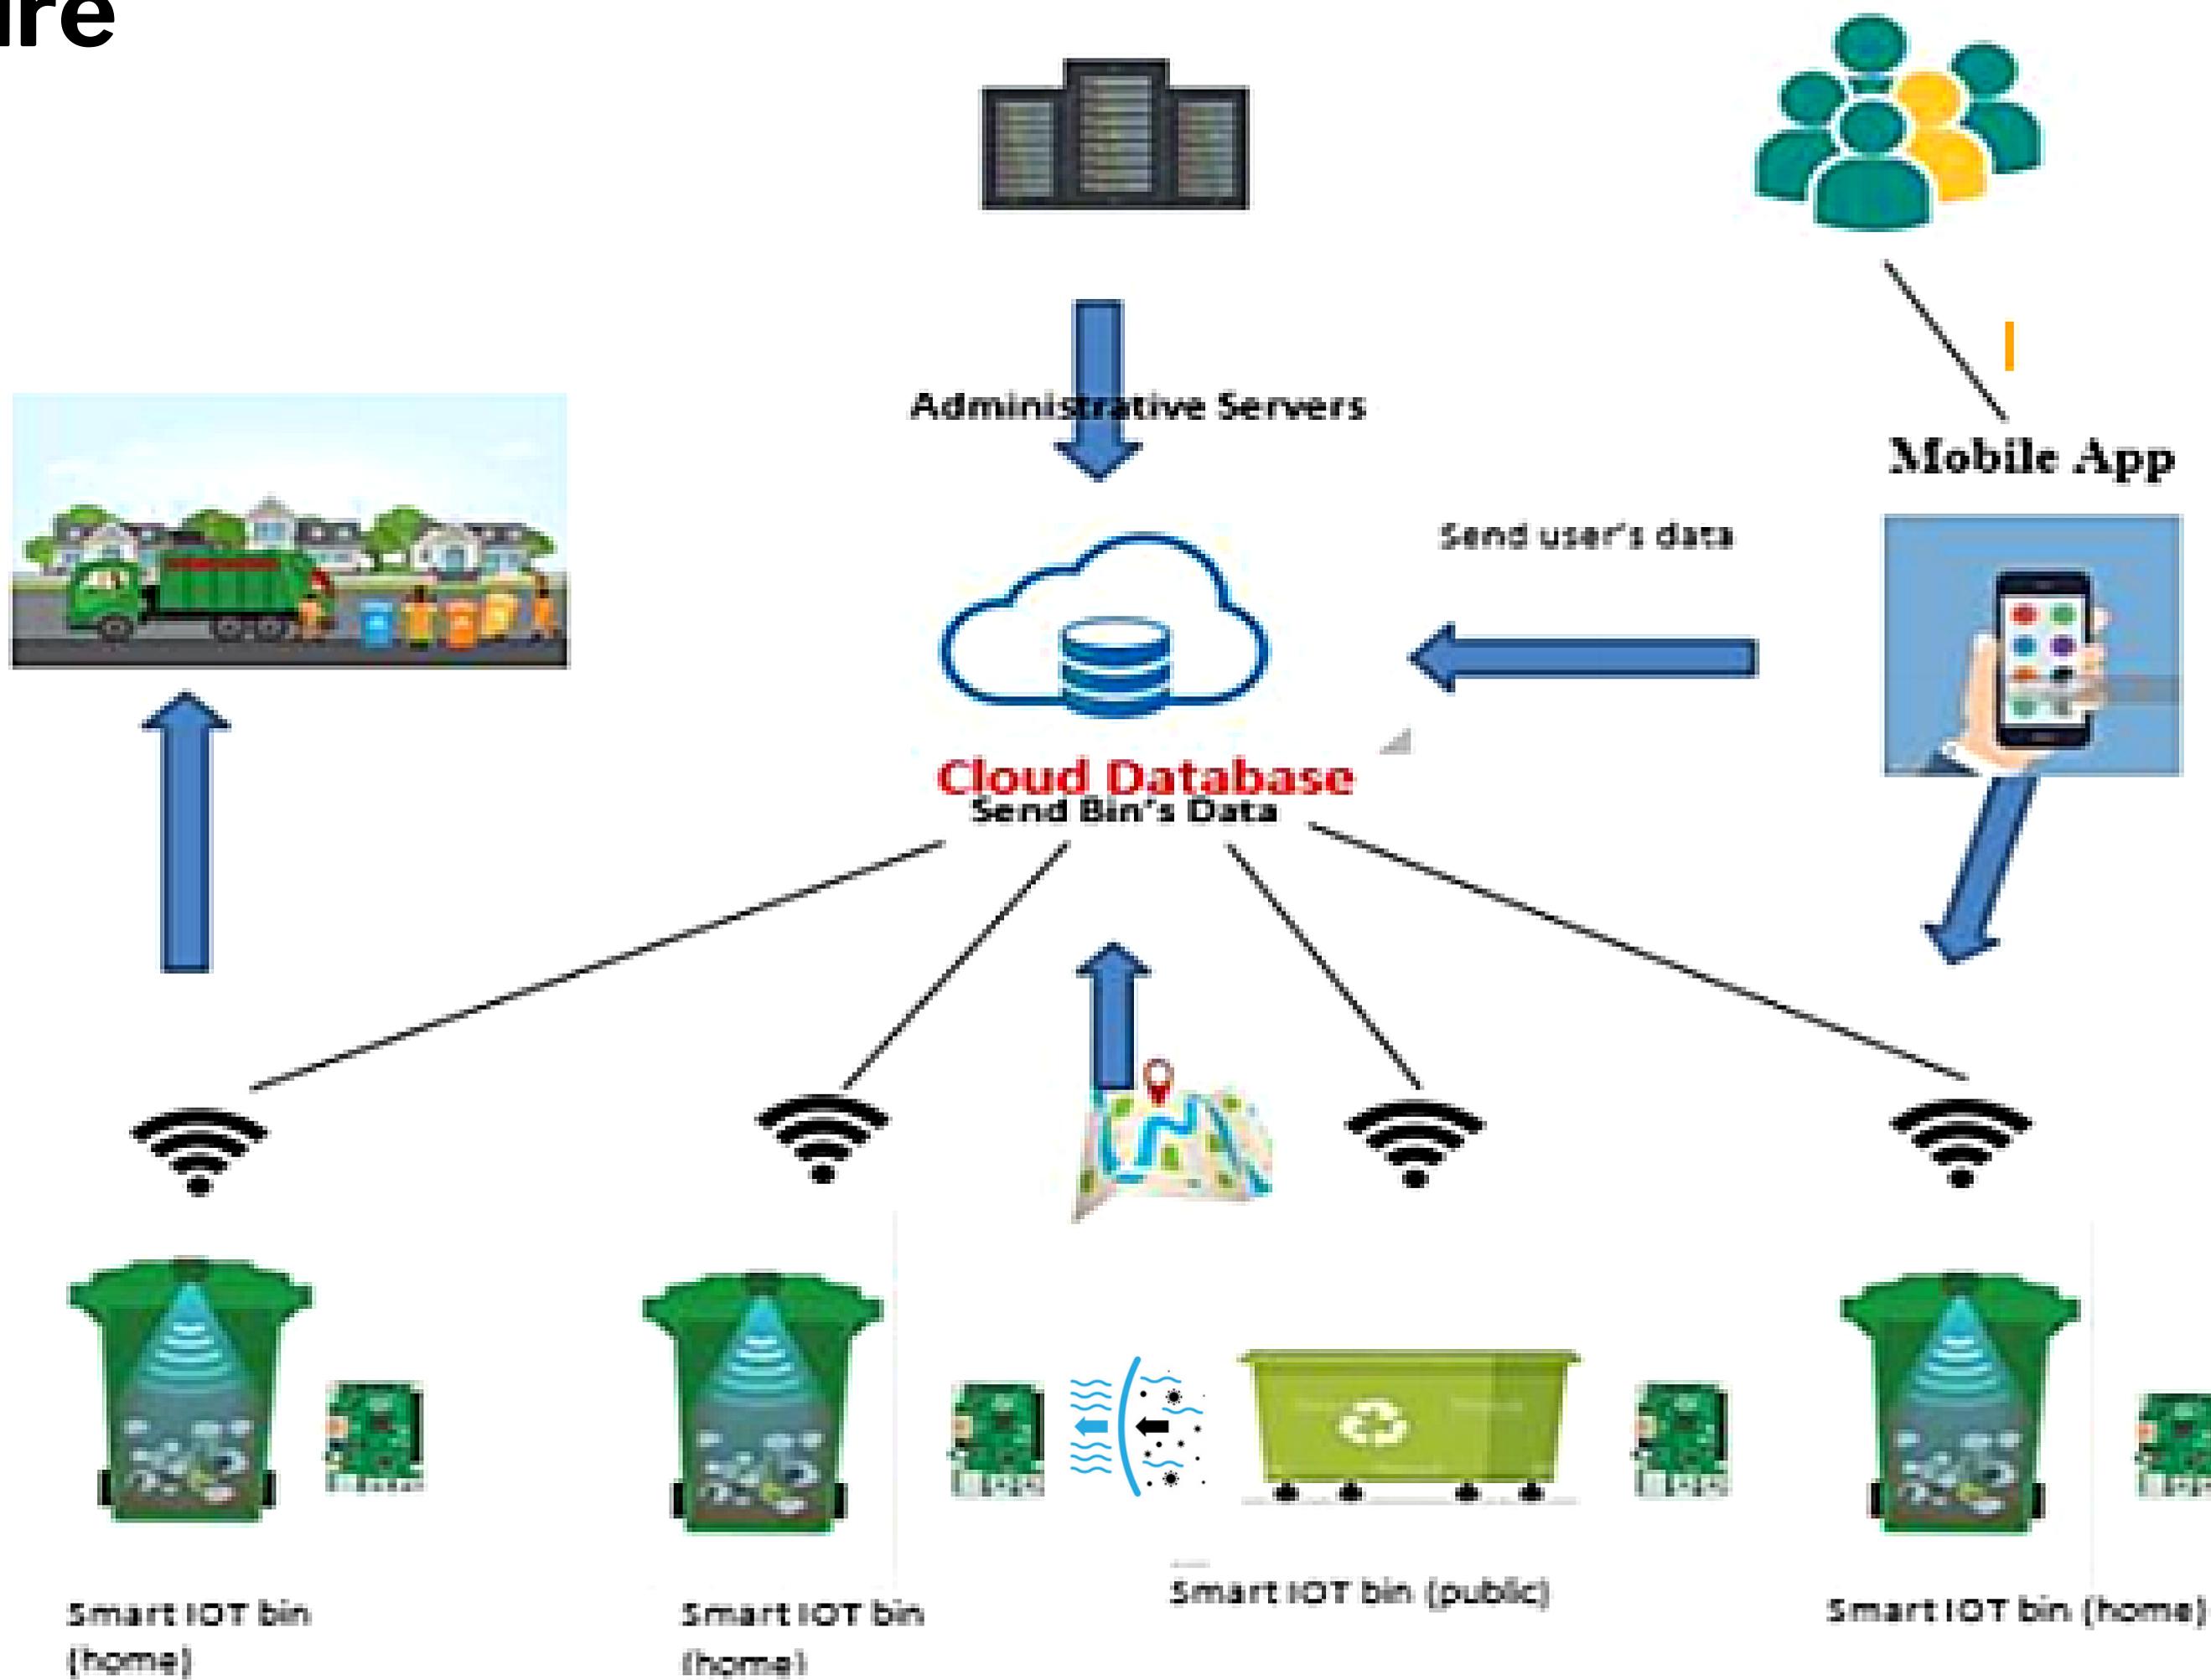

Problem

How Garbage and Air Pollution will be a problem to our world ?

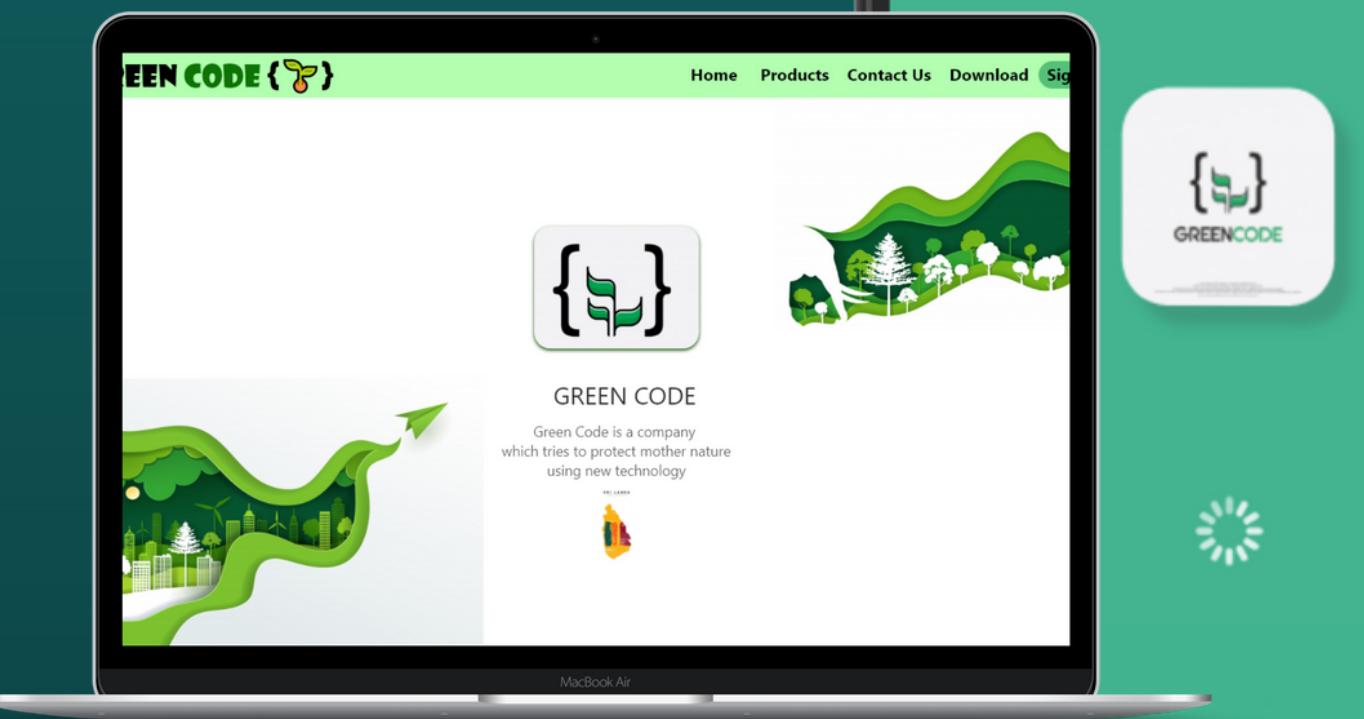

Architecture

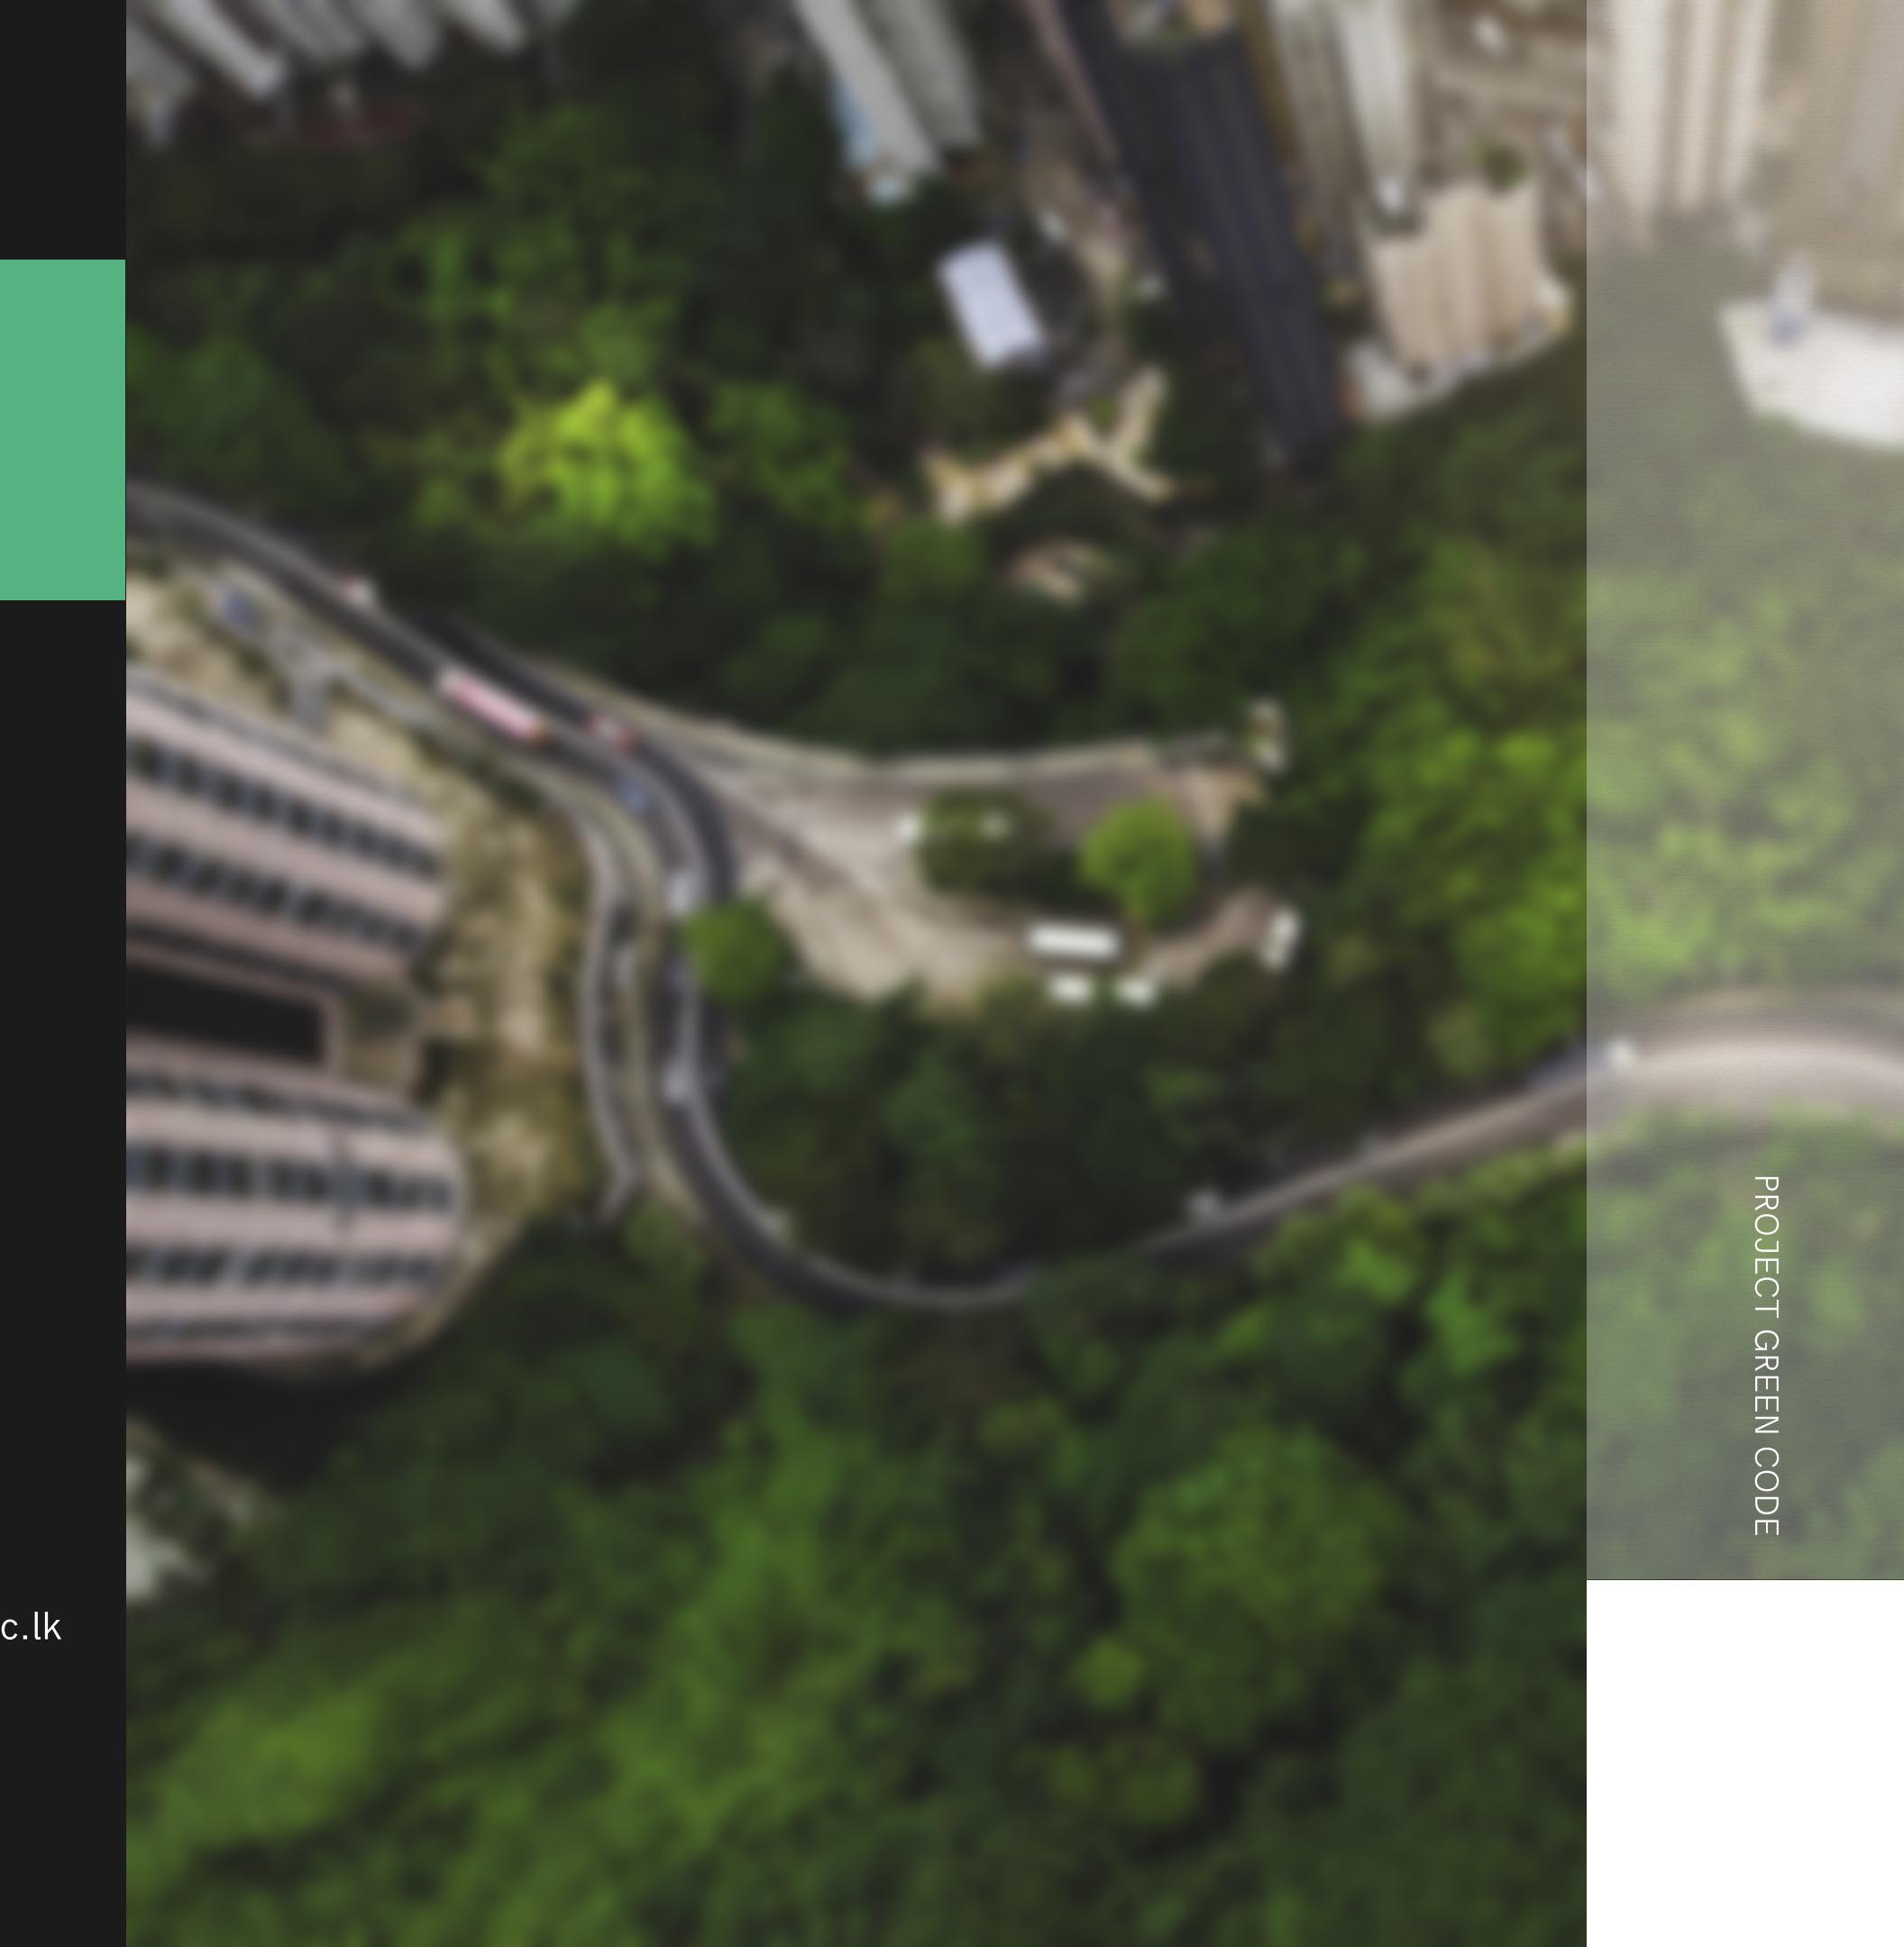

Demonstration

a demo of the product and service.

Let's see how our application,website and 2 IOT bin works

THANK YOU!
